

QUIK U

**Professional QUIK U safety harness equipped with:**

- front attachment point (e.g. for a self-locking device)
- rear attachment point (e.g. for a lanyard with an energy absorber)
- very wide rotating hip belt with profiled (bent) side buckles for working in a supported position
- elastic shoulder strap
- adjustable shoulder straps, thigh straps and hip belt
- chest strap
- automatic duralumin buckles on the hip belt and on the lower legs
- exceptionally ergonomic design of the thigh straps (suspended in the thigh part)
- aluminum attachment points (the harness is lighter and more resistant to corrosion)
